RESEARCH INTERESTS

My research interests reside at the intersection of human-computer interaction (HCI) and responsible artificial intelligence (AI). More concretely, I am interested in understanding laypeople's perceptions of AI systems and their impacts on society. Through my research, I intend to examine how AI can rectify social injustices instead of perpetuating them.

I am now investigating how AI developers can shape the public perception of decision-making algorithms. I am interested in how some of the ideologies shaping AI research, e.g., that algorithms are value neutral, can form laypeople's understanding of algorithms deployed in high-risk domains. I study how these ideas can be exploited by developers to escape deserved accountability and help justify unjust social outcomes caused by decision-making AI to the public.

During my BS and MS, I investigated people's perceptions of moral and legal responsibility for algorithmic decision-making. My research focused on capturing whom people consider responsible when AI causes harm to embed laypeople's opinions in normative research and policymaking to mitigate any potential conflicts between folk expectations and AI governance.

EDUCATION

Max Planck Institute for Security and Privacy (MPI-SP)

Bochum, Germany, Sep. 2023 - Present

Ph.D. in Computer Science. Advisor: Yixin Zou.

Korea Advanced Institute of Science and Technology (KAIST)

Daejeon, South Korea, Mar. 2021 - Feb. 2023

M.S. in Computer Science. Advisor: Meeyoung Cha.

Thesis: The Conflict Between Explainability and Responsibility in Algorithmic Decision-Making

Korea Advanced Institute of Science and Technology (KAIST)

Daejeon, South Korea, Feb. 2017 - Feb. 2021

Advanced B.S. in Computer Science (with honors).

HONORS AND AWARDS

KAIST School of Computing Outstanding Thesis Award 2023
Received for my M.S. thesis titled "The Conflict Between Explainability and Responsibility in Algorithmic Decision-Making."

SIGCHI Gary Marsden Travel Award 2023
Received USD 2,500 to attend ACM CHI 2023 and present my paper titled "Blaming Humans and Machines: What Shapes People's Reactions to Algorithmic Harm."

Best Student Paper Award 2022
Received at the "Issues in XAI #4: Explainable AI: between ethics and epistemology" workshop for the paper titled "The Conflict Between Explainable and Accountable Decision-Making Algorithms."

ACM EAAMO New Horizons Award 2022
Received at the ACM Conference on Equity and Access in Algorithms, Mechanisms, and Optimization (EAAMO'22) for the paper titled "Dimensions of Diversity in Human Perceptions of Algorithmic Fairness." The New Horizons Award is given to papers "bridging research and practice that EAAMO aspires to foster."

KAIST School of Humanities and Social Sciences Best Paper Award *Spring Semester, 2020*
Received for the paper titled "How Granting Rights to AI and Robots Might Conflict with Human Rights."

KAIST School of Computing Dean's List *Fall Semester, 2018*
Received for outstanding academic achievement.

KAIST Graduate/Undergraduate Research Project (GURP) Funding 2018
Received KRW 8,000,000 (USD 6,700) for a research project on classifying emotion from raw speech data.

SERVICE

PhD Representative for MPI-SP *Apr. 2024 - Present*
Responsible for representing MPI-SP PhD students in meetings discussing student-related issues at MPI-SP and the Max Planck Society.

Member of the Max Planck Law | Tech | Society Initiative *Dec. 2023 - Present*
Hosted speakers on topics in the intersection of law, technology, and society, and organized symposiums for graduate students from all around the world.

Reviewer

ACM Conference on Fairness, Accountability, and Transparency (FACCT)	2023
Equity and Access in Algorithms, Mechanisms, and Optimization (EAAMO)	2023
ACM Conference on Human Factors in Computing Systems (CHI)	2022 - 2023
ACM Conference on Computer-Supported Cooperative Work and Social Computing (CSCW)	2022
ACM Conference on Human Factors in Computing Systems (CHI) - Late Breaking Work	2022 - 2023
International Journal of Human-Computer Studies	2022
We Robot Conference	2021

WORK EXPERIENCES

Teaching Assistant - Privacy, Data Governance and Usability *Ruhr University Bochum, Oct. 2023 - Feb. 2023*
Responsible for grading students' assignments and assisting with administrative tasks.

Research Intern *Max Planck Institute for Software Systems (MPI-SWS), Jun. 2023 - Aug. 2023*
Supervisor: Elissa Redmiles.

Teaching Assistant - Data Science Methodology (CS564)

KAIST, Aug. 2021 - Jun. 2022

Responsible for preparing and grading students' assignments, projects, and presentations and assisting with administrative tasks.

Teaching Assistant - Scientific Writing (CC500)

KAIST, Aug. 2021 - Dec. 2021

Responsible for grading students' research papers and assisting with administrative tasks.

MEDIA COVERAGE

Should Robots With Artificial Intelligence Have Moral or Legal Rights? - The Wall Street Journal Apr. 2023

PUBLICATIONS LIST

Conferences are the primary publication venues for computer science/human-computer interaction (CS/HCI) research. Thus, the majority of my research is published in CS/HCI conference proceedings.
