RESEARCH INTERESTS

I am a computer scientist interested in understanding people's perception of artificial intelligence (AI) systems and how they will morally and legally affect society. I address these research questions through the lens of moral and legal responsibility, and I investigate the possible conflicts between the regulation and development of machines and the public view of these new technologies. My research aims to study how people perceive the moral agency and patiency of AI systems to embed their opinion on normative research and policymaking.

EDUCATION

Korea Advanced Institute of Science and Technology (KAIST)   *Daejeon, South Korea, Mar. 2021 - Present*
  M.S. in Computer Science. Advisor: Meeyoung Cha.

Korea Advanced Institute of Science and Technology (KAIST)   *Daejeon, South Korea, Feb. 2017 - Feb. 2021*
  Advanced B.S. in Computer Science (with honors).

École Polytechnique Fédérale de Lausanne (EPFL)   *Lausanne, Switzerland, Sep. 2019 - Feb. 2020*
  Exchange Semester at the School of Computer and Communication Sciences.

Work Experiences

School of Humanities & Social Sciences, KAIST　　　　　　　*Daejeon, South Korea, Aug. 2021 - Present*

　　Teaching Assistant of the Scientific Writing class (CC500). Responsible for grading students' research papers and assisting with administrative tasks.

School of Computing, KAIST　　　　　　　*Daejeon, South Korea, Aug. 2021 - Dec. 2021*

　　Teaching Assistant of the Data Science Methodology class (CS564). Responsible for preparing and grading class assignments and assisting with administrative tasks.

Honors and Awards

KAIST School of Humanities and Social Sciences Best Paper Award　　　　　*Spring Semester, 2020*

　　Received for the paper titled "How Granting Rights to AI and Robots Might Conflict with Human Rights."

KAIST School of Computing Dean's List　　　　　　　*Fall Semester, 2018*

　　Received for outstanding academic achievement.

Best Presentation Award　　　　　　　*Nov. 2018*

　　Received at the International Conference on Signal Processing and Machine Learning 2018.

KAIST Graduate/Undergraduate Research Project (GURP) GURP Funding　　　　　*Jan. 2018*

　　Received KRW 8,000,000 (USD 6,700) for a research project on classifying emotion from raw speech data.

Academic Services

Reviewer

　　We Robot Conference　　　　　　　*2021*

Invited Presentations

Conference for Truth and Trust Online 2021 *Oct. 2021*

Invited to present my research on people's attribution of responsibility for online misinformation (published at ACM CSCW, 2022).

Max Planck Institute for Research on Collective Goods *Apr. 2021*

Invited to present my research on people's perception of legal personhood for AI and robots (published at Frontiers in AI and Robotics, 2021).

Conference for Truth and Trust Online 2020 *Oct. 2020*

Invited to present my research on the COVID-19 infodemic and its association with vaccine hesitancy (under review).

IT and Law Conference 2020 *Aug. 2020*

Invited to present my research on people's perception of legal personhood for AI and robots (published at Frontiers in AI and Robotics, 2021).

Nokia Bell Labs Students' Day *Nov. 2019*

Invited to present my research on people's perception of legal personhood for AI and robots (published at Frontiers in AI and Robotics, 2021).
